

ZMC-602

AC SERVICE STATION

ZMC HI-TECH PRO AIR CONDITIONING STATION

ALL-IN-ONE RECOVERY, VACUUM, RECYCLING & REFILLING

ZM Cooling's latest generation of Fully Automatic air conditioning charging stations. The new stations stand out for their modern design and robust reliability. They are the result of careful research and years of experience. The ZM Cooling Hi-Tech units are built only with the best quality Italian components along with our technicians care and expertise to detail. All this to guarantee a simple safe use for every technician.

INTUITIVE AND EASY-TO-UNDERSTAND SOFTWARE

Thanks to the summary of the work phases shown by ClimaControl, the technician will always be informed about the progress of the procedure, as well as the estimated remaining time for its completion. ClimaControl also allows you to view and control your station remotely, through a smartphone (iOS / Android) or a PC (MacOS / Windows), allowing you to view directly on your device in mirror screen-mode the same screens you would see on your station.
